# **VECTOR**<sup>™</sup>5100

High capacity, efficient energy management, no diesel emissions. The Vector™ 5100 system: The new direction in cold storage solutions.

Carri

ECTOR

# PERFORMANCE SPECIFICATIONS VECTOR™ 5100

### **Condenser Dimensions** 76.4" x 87.0" x 22.8"

(1,940 x 2,209 x 579 mm)

**Evaporator Dimensions** 66.3" x 45.2" x 8.2" (1,684 x 1,149 x 280 mm)

#### **Body Opening** 66.8" x 46.0" (1,696 x 1,168 mm)

Approximate Weight Vector 5100: 1,320 lb (600 kg)

## **Cooling/Temperature Capacity:** Ambient at 100°F (38°C)

Evaporator Return Air Temp	Standby Operation	
	Btuh	Watts
35°F ( 2°C) 0°F (-18°C) -20°F (-29°C)	59,000 36,000 23,000	17,290 10,550 6,740

The Vector 5100 system is the new direction in financially and environmentally sound cold storage solutions. This all-electric unit eliminates the noise, emissions, and fuel consumption associated with traditional diesel cold storage units. Plus, the standardized wide-post unit mounting makes it an easy fit for retrofitting to older trailers. The Vector 5100 system offers high reliability, next-generation efficiency savings, and an energy management system that adjusts to changes in your electrical supply.

Next generation components for best-in-class reliability and performance. Exclusive high efficiency Novation<sup>™</sup> condenser coil, low noise V-Force<sup>™</sup> vortex suppression condenser fans, a more efficient semi-hermetic compressor, and damage-resistant Durashell 2 composite skins.

High performance system featuring a cool-only refrigeration system that eliminates the compressor shaft seal and many brazed joints, significantly reducing the chance of refrigerant leaks. Electric heating produces maximum heating and quick defrosts regardless of the outdoor ambient temperature.

TRU Demand<sup>™</sup> digital energy management logic monitors and efficiently regulates power draw to save energy costs. The maximum current draw may also be adjusted to regulate power draw from electrical infrastructure. Programmable economy settings provide optimal balance between electrical power savings and precision temperature control accuracy.

#### **Standard Features Include:**

Electric standby 460V/3Ph/60Hz. Automatic phase reversal Auto reset overload/GFI 06D semi-hermetic compressor 41CFM displacement 6 cylinders Compressor unloaders Refrigerant R-404A Electronic suction modulation Electronic expansion valve High efficiency Novation™ condenser coil Condenser coil hail/bug guard Maintenance-free AC fan motors TurboAir™ management system Electric heating and defrost system Automatic start/stop energy saver Durashell 2 composite doors Single latch release Wide post mounting Brown-out protection Stagger starting logic Programmable power management

Built-in brown out protection keeps the unit running during low voltage conditions by monitoring current draw and automatically adjusting its operation. In the event of an outage, stagger starting logic avoids a massive draw on the grid by preventing multiple units from starting simultaneously when the power returns.

Advance<sup>™</sup> microprocessor controller features multi-language capability, keypad lockout to prevent unauthorized changes or tampering, IntelliSet<sup>™</sup> commodity profiling and economy option, integrated data recorder, integrated diagnostics, hour meters, and exclusive PC card upgrades.

EcoDriven<sup>™</sup> features deliver environmentally sound solutions. An all-electric architecture specifically designed for stationary cold storage provides a superior solution to traditional diesel units. The Vector 5100 system has no diesel engine emissions, a lower carbon footprint, and offers an extremely quiet solution for operations with residential neighbors sensitive to diesel engine noise.

#### **Standard Features continued:**

Advance<sup>™</sup> microprocessor DataLink<sup>™</sup> data recorder MessageCenter<sup>™</sup> display Multi-lingual display Advanced pretrip and diagnostics PCMCIA card interface IntelliSet<sup>™</sup> with ProductShield<sup>™</sup> Installation package

#### Accessories and Options:

DataTrak™ remote communications Open trailer door indicator and shutdown switch Evaporator drain line extensions Remote LED light bar Remote temperature probe Unit impact protection bumpers Microprocessor protection bumper Chrome grille/stainless latch package Full bottom panel Custom color paint Flush mount remote control panel
